DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1 and 5 are rejected under 35 U.S.C. 102(a) as being anticipated by Graves et al.

The publication by Graves et al. (H1,820) shows a method for direct start of an internal combustion engine with a direct fuel injection into at least one combustion chamber of the engine. When a start temperature of the engine is below a threshold temperature (Col. 3, lines 33-56). The fuel to be injected in the at least one combustion chamber is heated. The fuel is heated prior to starting the internal combustion engine.

Fuel conducting parts of the engine are heated.
